AR DEMONSTRATION

Changing the way businesses communicate

Welcome to BUNDLAR's augmented reality (AR) demonstration packet. On the following pages, please find several experience use cases. Each case has a unique trigger, either an image marker or markerless, to launch its own AR Experience. AR Experiences feature components such as 3D buttons/active links to websites, PDFs, or videos, as well as 3D models and/or full media players, and more.

Instructions

1. Download the free App using the QR Code on the cover or visit your mobile app store.
2. If using the QR code, select app store or if you have the app launch the bundle.
3. Once in the app, scan the QR code or enter bundle code to download bundle.
4. Turn your volume on and point your device at the triggers or image markers.

Image Marker

Point camera at image on page

Markerless

Planar - point camera at flat surface and select experience to trigger it

Saint Louis University - Madrid Enhanced Admit Pack

STUDENT *housing*

WHERE WILL YOU LIVE?

Whether a first-year or transfer student we look forward to welcoming you to our international community on and off campus.

HOUSING OPTIONS

FIRST-YEAR STUDENTS

All first-year students are required to live in one of two student residence halls (Colegio Mayor El Faro or Residencia Godós) - university residence halls that are home not only to students from SLU-Madrid, but also other local universities. The residency requirement for students entering in the fall is two semesters whereas for those entering in the spring it is one.

SLU-Madrid has partnered with Novo Residencial to provide an extraordinary residential experience for its first-year students. Safety is our highest priority. Access to the residences and to the rooms is with electronic key cards, and a CCTV system is located in all common areas. Reception is staffed 24/7 and available to help students.

Both residences are located within walking distance from campus and offer amenities you need to support you in your studies and to transition to life in the bustling city of Madrid.

- Amenities include full board, bed linen/towel service, internet and all utilities.
- Well-furnished rooms, with ample storage, individual kitchenettes and bathrooms.
- Meal plan includes full board, 7 days a week (except during the Christmas holidays and Easter week). Arrangements may be made to dine at the SLU - Madrid Unity by Sodexo cafeteria for lunch Monday through Friday.

- Each residence also offers study rooms, game rooms, gyms, dining rooms with terraces and vending areas, laundry service and parking.
- Social, sports and cultural activities and events.

The housing application opens in early spring (for fall admission).

Residency Exemption

If you would like to apply for an exemption, you'll need to submit the residency exemption form through the housing application platform along with associated documentation. Do not make any arrangements for alternative housing until you are notified by the SLU-Madrid housing office that your exemption has been approved.

TRANSFER STUDENTS

You are free to choose the housing that best fits your needs. Please read carefully through all the information about housing options found on our web page to decide which is best for you.

 For more information about housing options in Madrid, email the Housing Coordinator at: housing-madrid@slu.edu
