AR DEMONSTRATION

CHANGING THE WAY BUSINESSES COMMUNICATE

Welcome to BUNDLAR's augmented reality (AR) demonstration packet. On the following page, please find a business card use case. The business card is the unique 'trigger,' also refered to as a 'marker,' which will launch its own AR Experience.

Instructions

1. Download the free App using the QR Code on the cover or visit your app store.

2. If using the QR code, select app store or if you have the app launch the bundle.

3. Once in the app, scan the QR code or enter bundle code to download bundle.

4. Turn your volume on and point your device at the triggers or image markers.

ENHANCED BUSINESS CARD

MAKE A STATEMENT WITH CUTTING EDGE BUSINESS CARDS

Use the product itself as a marker to help your consumer setup their unit with step-by-step interactive instructions. Include videos and other content to ensure nothing is missed.

Features Included:

- Layered Tour, Buttons, Transparent Images, Media Player, and Video
