

Mobile App Quick Start Guide

Entering a Bundle Code

Entering a Bundle Code

There are two ways of entering your Bundle code. You can manually enter the code in the text field or tap the “QR scanner icon” to scan in the QR code.

1. Enter your code in the text field or select the QR icon to scan the Bundle qr code.

2. Tap “Download”

3. Wait for your Bundle Experience to download

Viewing an Experience

Viewing an Experience

To view an experience in the Bundle, simply aim your device at the image trigger. Once the Image Trigger is recognized, the AR experience will launch. Tapping the (?) will bring up interaction tooltips and help.

1. Aim your device at the Image Trigger

2. Your experience will begin

3. Tap the (?) for interaction tips

Viewing a Planar Experience

Viewing a Planar Experience

To view a planar experience in the Bundle, tap the planar icon on the screen. Select the experience from the bottom tray. Aim your device at a vertical or horizontal surface. Once the plane is detected, the AR experience will launch.

1. Tap the Planar Icon displayed on the screen

2. Select a Planar experience from the tray

3. Once a plane has been detected the experience will trigger

Viewing a Planar Experience (Take a picture)

Taking a picture of a Planar Experience

You can take a picture of the experience by simply tapping the camera button. You have the option to save the image to your device or delete the image.

*Camera option may not be available on all Planar Experiences

1. Aim your device at the Image Trigger

2. Your experience will begin

3. Tap the (?) for interaction tips

Viewing a Planar Experience (Changing Planar Experiences)

Changing Planar Experience

To view a different planar experience in the Bundle, tap the planar icon in the bottom right. Select the experience from the bottom tray.

1. Tap the Planar Icon button

2. Select the experience you want to view

3. Once a plane has been detected the experience will trigger
